

THE 3RD WeGO SMART SUSTAINABLE CITY AWARDS

The WeGO Smart Sustainable City Awards was established in 2011 to recognize and promote the outstanding ICT and e-Government practices of cities around the world. Through this regular international competition, the WeGO Smart Sustainable City Awards aims to encourage the incorporation of innovative ICT technology for the enhancement of administrative efficiency; increase citizen access to public services; and to actively share knowledge on innovative Smart Sustainable City strategies.

The WeGO Smart Sustainable City Awards is given to the most successful smart city projects, selected by the WeGO Smart Sustainable City Awards Judging Panel in six categories.

Open City Category

Administrative Transparency, Open Data

e-Government Service Category

Quality, Effectiveness of Public Services

Digital Inclusion Category

Citizen Engagement, Civic Participation, Digital Divide

Innovative Smart City Category

Innovations using ICT in urban environment

Sustainable City Category

Addressing SDGs, Impact on Sustainability

Cooperative City Category

Internal/External Integration of City, City-to-City Cooperation
